

# Markita del Carpio Landry

Associate Professor • Chemical and Biomolecular Engineering • University of California, Berkeley  
[landry@berkeley.edu](mailto:landry@berkeley.edu) • [@Landry\\_Lab](#) • <http://landrylab.com>

---

## RESEARCH SUMMARY

---

My research group merges the fields of single-molecule biophysics, colloid/interface science, and nanotechnology to develop probes for imaging neuromodulation in the brain, to study lipid nanoparticle-based nucleic acid delivery, and for the delivery of genetic material to plants. My lab's research has been highlighted in [NPR](#), [Popular Mechanics](#), [The San Francisco Chronicle](#), and [C&E news](#). Short research talks (in both English and Spanish) [available on my lab website](#). Furthermore, I implement best practices in [professional development](#) and in [Diversity, Equity, & Inclusion](#) as lab PI.

## POSITIONS AND AFFILIATIONS

---

- **University of California, Berkeley**, Berkeley, CA  
Associate Professor, Chemical and Biomolecular Engineering, 07/2022 – present  
Assistant Professor, Chemical and Biomolecular Engineering, 07/2016 – 07/2022
- **Lawrence Berkeley National Laboratory**, Berkeley, CA  
Faculty Scientist, Molecular Biophysics and Integrated Bioimaging, 01/2017 - present
- **Hellen Wills Neuroscience Institute**, Berkeley, CA  
Associate Professor, 07/2022 - present  
Assistant Professor, 01/2017 - 07/2022
- **Chan-Zuckerberg Biohub**, San Francisco, CA  
Investigator, 02/2017 - present
- **Co-Founder, Biophilia Genetics**  
CSO, 06/2023 - present
- **Syngenta**, RTP, NC  
Consultant, 9/2022 - present
- **Terramera, Inc**, Vancouver, BC  
Member, Scientific Advisory Board  
06/2019 – present

## EDUCATION

---

- **Massachusetts Institute of Technology**, Cambridge, MA  
NSF Post-doctoral Research Fellow, Chemical Engineering, 2013 – 2016  
Postdoctoral Advisor: Michael S. Strano
- **University of Illinois at Urbana-Champaign**, Champaign, IL  
[Ph.D.](#) Chemical Physics, 2012  
Advisor: Yann R. Chemla  
Thesis Title: *Single-molecule methods for an improved understanding of biophysical interactions: From fundamental biology to applied nanotechnology*  
[Certificate](#) in Business Administration, 2009
- **University of North Carolina at Chapel Hill**, Chapel Hill, NC  
[B.S.](#) Chemistry, Biochemistry Track, 2006  
[B.A.](#) Physics, 2006

## HONORS AND AWARDS

---

2023	Schmidt Polymaths Award ( <a href="#">About</a> )
2023	Keck Foundation Award ( <a href="#">About</a> )
2023	Bakar Prize ( <a href="#">About</a> )
2022	UNC Chapel Hill Distinguished Young Alumni Award ( <a href="#">About</a> )
2022	National Academies Science Diversity Leadership Award Honorable Mention ( <a href="#">About</a> )
2022	McKnight Scholar Award ( <a href="#">About</a> )
2022	Philomathia Prize ( <a href="#">About</a> )

## Markita Patricia del Carpio Landry

2022	Vilcek Prize for Creative Promise in Biomedical Science ( <a href="#">About</a> )
2021	Chan-Zuckerberg Biohub Investigator ( <a href="#">About</a> )
2021	Dreyfus Foundation Teacher-Scholar Award ( <a href="#">About</a> )
2021	NSF CAREER Award ( <a href="#">About</a> )
2021	2021 Nature Research Awards for Inspiring Women in Science ( <a href="#">About</a> )
2021	NAS Standing Committee on Biotechnology Capabilities and National Security Needs
2021	University of Illinois at Urbana-Champaign Commencement Speaker
2020	Cell Press 100 Most Inspiring Hispanic/Latinx Scientists in America ( <a href="#">About</a> )
2020	SfN Janett Rosenberg Trubatch Career Development Award ( <a href="#">About</a> )
2020	University of Illinois Alumni Association Young Alumni Award ( <a href="#">About</a> )
2020	Frontiers of Imaging: CZI Deep Tissue Imaging Award ( <a href="#">About</a> )
2020	2020 Emerging Leader in Molecular Spectroscopy Award ( <a href="#">About</a> )
2020	ECS Nanocarbons Division Young Investigator Award ( <a href="#">About</a> )
2019	C&EN Talented 12 ( <a href="#">About</a> )
2019	Kavli Fellow, National Academies of Science ( <a href="#">About</a> )
2019	Bakar Fellow ( <a href="#">About</a> )
2019	Prytanean Faculty Award ( <a href="#">About</a> )
2018	Society of Hispanic Professional Engineers Young Investigator Award ( <a href="#">About</a> )
2018	HHMI Gilliam Fellow ( <a href="#">About</a> )
2018	DARPA Young Faculty Award ( <a href="#">About</a> )
2018	Sloan Foundation Fellow ( <a href="#">About</a> )
2017	Kavli Fellow, National Academies of Engineering ( <a href="#">About</a> )
2017	Innovative Genomics Institute Fellow ( <a href="#">About</a> )
2017	Foundation for Food and Agriculture Research (FFAR) New Innovator Award ( <a href="#">About</a> )
2017	Hellen Wills Neuroscience Institute – Radical Ideas Awardee ( <a href="#">About</a> )
2017	Stanley Fahn Junior Faculty Award ( <a href="#">About</a> )
2017	Beckman Foundation Young Investigator ( <a href="#">About</a> )
2017	Chan-Zuckerberg Biohub Investigator ( <a href="#">About</a> )
2016	Burroughs Wellcome Fund Career Award at the Scientific Interface ( <a href="#">About</a> )
2015	Brain and Behavior Foundation (NARSAD) Young Investigator Award ( <a href="#">About</a> )
2015	NIH Follow That Cell Challenge – Finalist ( <a href="#">About</a> )
2014	Burroughs Wellcome Fund PDEP ( <a href="#">About</a> )
2013	NSF Postdoctoral Research Fellowship
2009	NSF Graduate Research Fellowship
2011	Society of Hispanic Professional Engineers Fellowship
2008	TA of Excellence Award: Teaching Assistant rated as excellent by students

86. Rosenberg, D. J., Cunningham, F. J., Hubbard, J., D., Goh, N. S., Wang, J. W., Nishitani, S., Hayman, E., Hura, G., L., **Landry, M.P.**, Pinals, R. L.† Mapping the morphology of DNA on carbon nanotube-based sensors in solution using X-ray scattering interferometry. *bioRxiv* 2023

---

#### PATENTS & INVENTION DISCLOSURES

† Denotes lead inventor

1. **Landry, M.P.**†, Wilbrecht, L., Beyene, A. B., O'Donnell J.T.D. Near-Infrared probes for modulatory neurotransmitter imaging in brain tissue. US Patent US11,357,872 issued on Jun 14, 2022.
2. **Landry, M.P.**†, Demirer, G.S. Mature plant transfection using carbon nanotubes. US Pat. No.11,661,606 issued on May 30 2023.
3. Kausch, A.P., **Landry, M.P.** †, Methods and Compositions for In Vivo Direct Genome Editing in Plants. UC Berkeley and University of Rhode Island Provisional Patent 18/495,731 filed October 26<sup>th</sup>, 2023.
4. **Landry, M.P.** † Lui, A., High throughput method to validate lipid nanoparticle efficacy and cytotoxicity. UC Berkeley Invention disclosure filed May 2023.
5. **Landry, M.P.** † Wang, J., Squire, H., Cell penetrating peptides for nucleic acid and protein delivery in plants. UC Berkeley Invention disclosure filed May 2023.
6. **Landry, M.P.** † Matos, J., Cunningham, F., Genome editing in plants with carbon nanotubes. UC Berkeley Invention disclosure filed April 2023.
7. **Landry, M.P.**†, Lui, A. A high-throughput *in vitro* method to determine the cytotoxicity and efficacy profiles of lipid-nanoparticle based therapeutics such as mRNA vaccines. Invention disclosure filed April 2023.
8. **Landry, M.P.**†, Grandio, E., Jeong, S. High-Yielding Extraction of Single-Stranded Nucleic Acids with Solid Substrates. Invention disclosure BK-2021-079 filed December 2021.
9. **Landry, M.P.**†, Zhang, H., Demirer, G.S. Gene Silencing in Plants with DNA Origami Nanostructures. Invention disclosure BK-2019-044 filed September 2018.
10. Strano, M.S. †, Giraldo, J.P., **Landry, M.P.** Ratiometric sensors from single chirality carbon nanotubes. US Patent US11002741B2 issued on May 5, 2021.
11. Strano, M.S. †, Giraldo, J.P., **Landry, M.P.**, Faltermeier, S. Nanobionic engineering of organelles and photosynthetic organisms. US Patent US11208628B2 issued on December 28, 2021.

---

#### INVITED PRESENTATIONS

- (1) PRESENTATIONS GIVEN IN FRENCH

- **Speaker at Laval University.** *Courir Sans Gaz: Comment Fonctionnent les Protéines qui sont Indépendantes de Sources d'Énergie Externes? Une Étude à l'Échelle de la Molécule Unique.* (Translation : Running without Gas : How do proteins independent from external energy sources function?). Laval, Québec, Canada. (February 2011)

### (2) PRESENTATIONS GIVEN IN SPANISH

- **Seminario MADIMED, Universidad de La Habana:** Detección de lo Invisible: *El poder de la Luz Infrarroja Cercana Para Aplicaciones Biológicas.* (Translation: The Power of Infrared Light in Bioengineering) Habana, Cuba. (June 2016)
- **Conferencias Físicas: Speaker at Universidad Mayor San Andrés:** Observación de las Interacciones Proteínas y ADN con Pinzas Ópticas. (Translation: Observation of protein-DNA interactions with optical traps). La Paz, Bolivia. (December 2008)

### (3) PRESENTATIONS GIVEN IN ENGLISH

1. **University of Colorado Boulder (Invited):** Nanomaterial Strategies for plant bioengineering. Boulder, CO (December 2023)
2. **University of Colorado Boulder (Invited):** Near infrared imaging of neuromodulators in the brain. Boulder, CO (December 2023)
3. **Colorado State Materials Science Department (Invited):** Near infrared imaging of neuromodulators in the brain. Fort Collins, CO (November 2023)
4. **Colorado State Plant Biology Department (Invited):** Nanoparticles enable plant genetic engineering without transgene integration. Fort Collins, CO (November 2023)
5. **MIT Bioengineering Department Seminar (Invited):** Nanoparticles enable plant genetic engineering without transgene integration. Boston, MA (November 2023)
6. **10<sup>th</sup> Plant Genomic & Gene Editing Congress (Invited):** Nanomaterial Strategies for RNA and protein delivery in plants. Raleigh, NC (October 2023)
7. **Mellichamp Award Lectureship, Purdue Chemical Engineering (Invited Named Lecture Series Speaker):** Nanoparticles enable plant genetic engineering without transgene integration. West Lafayette, IN (August 2023)
8. **Pennsylvania State University Materials Science Department Seminar (Invited):** Nanoparticles enable the delivery of genetic material to plants without transgene integration. State College, PA (October 2023)
9. **Memorial Sloan Kettering Cancer Center of Molecular Pharmacology and & Chemical Biology Seminar (Invited):** Near infrared nanosensors to image neurochemistry in the brain. New York, NY (September 2023)
10. **Stanford University Department of Chemistry (Invited):** Nanoparticles enable the delivery of genetic material to plants without transgene integration. Stanford, CA (September 2023)
11. **Fluorescent Proteins and biological Sensors, HHMI Research Campus (Invited):** Imaging neuromodulation in the brain with near-infrared nanosensors. Ashburn, Virginia (August 2023)
12. **Euroanalysis (Invited Keynote Speaker):** Imaging neuromodulators with near infrared nanosensors. Geneva, Switzerland (August 2023)
13. **Kyoto University Department of Chemistry (Invited):** Nanomaterials enable delivery of genetic materials to plants without transgene integration. Kyoto, Japan (July 2023)
14. **National Academies of Engineering JAFGE (Invited):** Nanomaterials for life sciences applications. Tokyo, Japan (July 2023)
15. **Nano Korea (Invited Keynote):** Nanoparticles for the delivery of nucleic acids and proteins in plants. Seoul, South Korea (July 2022)
16. **NT23 (Invited Plenary Speaker):** Imaging neuromodulators and their implications in Huntington's Disease. Bordeaux, France (June 2023)
17. **Electrochemical Society Meeting (Invited):** Protein corona formation on single-walled carbon nanotubes. Boston, MA (May 2023)

18. **MIT Chemical Engineering Seminar Series (Invited):** *Nanoparticles enable plant genetic engineering without transgene integration.* Boston, MA (February 2023)
19. **Nano Today 2023 (Invited):** *Nanoparticles enable plant editing without transgene integration.* San Diego, CA (February 2023)
20. **Harvard University Physics Seminar Series (Invited):** *Nanotechnology for life sciences applications.* Boston, MA (February 2023)
21. **Max Planck Humboldt Foundation Seminar (Invited):** *Nanobiotechnology for medicinal plant bioengineering.* Berlin, Germany (February 2023)
22. **Honorary Morgan Lecture - Texas Christian University (Invited Named Lecture Series):** *Nanotechnology for life sciences applications.* Fort Worth, Texas (January 2023)
23. **Weber Meeting (Invited):** *Imaging neuromodulators with near infrared nanosensors.* Punta Del Este, Uruguay (January 2023)
24. **Atlantic Basin Conference on Chemistry (Invited):** *Imaging neuromodulators with near infrared nanosensors.* Marrakesh, Morocco (December 2022)
25. **Colorado State Department of Plant Biology (Invited):** *Nanoparticles for the delivery of nucleic acids and proteins in plants.* Fort Collins, CO (November 2022)
26. **Frontiers of Neuromeritics (Invited):** *Imaging neuromodulators with near infrared nanosensors.* Quebec City, QC (October 2022)
27. **Stanford University Department of Chemical and Biomolecular Engineering (Invited):** *Nanoparticles for the delivery of nucleic acids and proteins in plants.* Stanford, CA (September 2022)
28. **Nano DDS (Invited):** *Nanoparticles for the delivery of nucleic acids and proteins in plants.* Chapel Hill, NC (September 2022)
29. **Johns Hopkins University Department of Chemical and Biomolecular Engineering (Invited):** *Nanoparticles for the delivery of nucleic acids and proteins in plants.* Baltimore, MD (September 2022)
30. **WONTON 2022 (Invited):** *Carbon nanotubes to image neuromodulators in the brain.* Madison, WI (July 2022)
31. **Frontiers of Genome Engineering (Invited):** *Nanomaterials enable the delivery of genetic information into plants without transgene integration.* Seoul, South Korea (June 2022)
32. **Dopamine 2022 (Invited):** *Dopamine imaging with near infrared nanosensors.* Lyon, France (June 2022)
33. **Electrochemical Society Meeting B02 Session (Invited):** *Protein Corona Formation on Hard and Polymeric Nanoparticles – Towards Understanding Biocompatibility, Biodistribution, and Efficacy.* Vancouver, Canada (May 2022)
34. **Lawrence Berkeley National Laboratory Molecular Foundry Seminar (Invited):** *Nanomaterials Enable Delivery of Genetic Material Without Transgene Integration in Mature Plants.* Berkeley, CA (May 2022)
35. **University of Illinois at Urbana Champaign Materials Science Department Seminar (Invited):** *Nanomaterials Enable Delivery of Genetic Material Without Transgene Integration in Mature Plants.* Urbana, IL (February 2022)
36. **University of California Riverside Department of Plant Biology (Invited):** *Nanomaterials Enable Delivery of Genetic Material Without Transgene Integration in Mature Plants.* Riverside, CA (April 2022)
37. **Basal Ganglia Gordon Research Conference (Invited):** *Near Infrared Imaging of Neurotransmission in the Brain.* Ventura, CA (March 2022)
38. **University of British Columbia Department of Chemistry Seminar (Invited):** *Nanomaterials Enable Delivery of Genetic Material Without Transgene Integration in Mature Plants.* Vancouver, British Columbia (February 2022)
39. **North Carolina Biotechnology Center (NCBC) (Invited):** *Nanomaterials Enable Delivery of Genetic Material Without Transgene Integration in Mature Plants.* Raleigh, NC (January 2022)
40. **NYU Abu Dhabi Department of Chemistry (Invited):** *Nanomaterials Enable Delivery of Genetic Material Without Transgene Integration in Mature Plants.* Abu Dhabi, United Arab Emirates. (November 2021)

41. **Genentech Seminar Series (Invited):** *Diverse solutions for life's most challenging problems – from nanotechnology to inclusion and belonging in STEM.* San Francisco, CA. (August 2021)
42. **Reliance Industries Biofuel and Sythetic Biology Seminar Series (Invited):** *Nanomaterials Engineering for Biomolecule Delivery to Plants.* Mumbai, India. (June 2021)
43. **IEEE Nanotechnology Council (Invited):** *Nanomaterials-based extraction of SARS-CoV2 viral RNA.* San Francisco, CA. (June 2021)
44. **NT21: International Conference on the Science and Application of Nanotubes and Low-Dimensional Materials (Invited):** *Carbon Nanotubes Enable Delivery of Biomolecules to Plants Without Transgene Integration.* Houston, TX. (June 2021)
45. **ACS Innovation in Measurement Science Symposium (Invited Keynote):** *Nanomaterials for Imaging Neuromodulation in the Brain.* Boston, MA. (June 2021)
46. **University of Minnesota NIH Chemistry-Biology Interface Research Symposium. (Invited):** *Nanomaterials Engineering for Biomolecule Delivery to Plants.* Minneapolis, MN. (May 2021)
47. **ECS 239th Meeting - 2021 - Carbon Nanostructures in Medicine and Biology Symposium (Invited):** *A Protein Corona-Based Design Strategy for Carbon Nanotube Sensors.* Chicago, IL. (May 2021)
48. **ECS 239th Meeting - 2021 - 2020 Nanocarbons Division SES Young Investigator Award (Invited):** *Nanomaterials Engineering to Probe and Control living Systems.* Chicago, IL. (May 2021)
49. **UCLA Department of Chemistry and Biochemistry Seminar (Invited):** *Tiny things to engineer solutions for life's big problems.* Los Angeles, CA. (May 2021)
50. **3M Seminar Series (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems.* St. Paul, MN. (April 2021)
51. **University of Florida Department of Chemical Engineering Seminar (Invited):** *Nanomaterials to probe and control biological systems.* Gainesville, FL. (April 2021)
52. **University of Cincinnati Chemistry (Invited):** *Tiny things to engineer solutions for life's big problems.* Cincinnati, OH. (April 2021)
53. **Rowan University Physics Department Seminar (Invited):** *Tiny things to engineer solutions for life's big problems.* Glassboro, NJ. (March 2021)
54. **Carnegie Mellon University Department of Materials Science and Engineering Seminar (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems.* Pittsburgh, PA. (February 2021)
55. **Harvard University School of Engineering and Applied Sciences Seminar (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems.* Pittsburgh, PA. (January 2021)
56. **University of California Riverside Plant Sciences Seminar (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Riverside, CA. (January 2021)
57. **Max Planck Institute of Biochemistry (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Munich, Germany. (January 2021)
58. **Corteva Plant Breeding, Genetics, and Biotechnology (PBGB) symposium, Michigan State University (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* East Lansing, MI. (December 2020)
59. **University of California Berkeley Department of Molecular and Cellular Biology Seminar (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems.* Berkeley, CA. (December 2020)
60. **Pacifichem 2020 (Invited):** *Imaging Striatal Dopamine Release with a Non-Genetically Encoded Near- Infrared Fluorescent Nanosensor.* Honolulu, HI. (December 2020) \*Postponed due to covid-19
61. **Pacifichem 2020 (Invited):** *Carbon Nanotubes Enable Delivery of Genetic Material Without Transgene Integration in Mature Plants.* Honolulu, HI. (December 2020) \*Postponed due to covid-19
62. **Plant Sciences Institute, Israeli National Center for Genome Editing in Agriculture (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Rishon, Israel (November 2020)

63. **Naval Research Laboratory Center for Bio/Molecular Science and Engineering (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* (November 2020)
64. **Sustainable Nanotechnology Organization Meeting (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Virtual meeting. (November 2020)
65. **ACS Nano Rising Star Symposium (Invited):** *Engineering Nanomaterials for Biotechnology.* Beijing, China. (November 2020)
66. **NANO FOR AGRI 2020: Application of Nanotechnology for Sustainable, Productive and Safer Agriculture and Food Systems, TERI-Deakin Nanobiotechnology Centre 2020 (Invited):** *Nanomaterials Enable Delivery of Genetic Material Without Transgene Integration in Mature Plants.* Gurugram, India. (November 2020)
67. **AIChE Annual Meeting, Bionanotechnology Division (Invited Plenary):** *Nanomaterials Engineering to Probe and Control Living Systems.* San Francisco, CA. (November 2020)
68. **Carnegie Mellon University Department of Chemical Engineering Seminar (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems.* Pittsburgh, PA. (November 2020)
69. **AIChE Annual Meeting, Food, Pharmaceutical, and Bioengineering Division (Invited Plenary):** *Imaging Striatal Dopamine Release with a Non-Genetically Encoded Near-Infrared Fluorescent Nanosensor.* San Francisco, CA. (November 2020)
70. **UNC Eshelman School of Pharmacy – Rising Stars in Drug Delivery and Novel Carriers Seminar (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Chapel Hill, NC. (November 2020)
71. **AIChE Annual Meeting, Education Division (Invited):** *Integration of Professional Development Practices in Doctoral and Postdoctoral Training – Approaches for Supporting Career Navigation in Chemical Engineering.* San Francisco, CA. (November 2020)
72. **Rice University Department of Bioengineering Seminar (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems.* Houston, TX (October 2020)
73. **NIMH 2020 Symposium “Advancing Technologies to Investigate Mechanisms of Gut-Microbiota-Brain Interaction (Invited):** *Imaging Neuromodulators with Near Infrared Nanosensors.* Stockholm, Sweden (October 2020)
74. **Plant Genome Editing Symposium – Society for the Advancement of Chicanos and Native Americans In Science, SACNAS (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Long Beach, CA. (October 2020)
75. **4<sup>th</sup> International Conference on Plant Synthetic Biology, Bioengineering, and Biotechnology (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* College Copenhagen, Denmark. (October 2020)
76. **Texas A&M Genome Editing Symposium (Invited Keynote):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* College Station, TX. (October 2020)
77. **8<sup>th</sup> Plant Genomics & Gene Editing Congress (Invited Keynote):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Raleigh, NC. (October 2020) \*Postponed due to covid-19
78. **2020 Frontiers in Neurophotonics Conference (Invited):** *Imaging neuromodulation with synthetic near-infrared nanosensors.* Quebec City, QC. (October 2020) \*Canceled due to covid-19
79. **Department Biomedical Engineering at City College New York Seminar (Invited):** *Nanotechnologies for life’s big problems.* New York, NY. (September 2020)
80. **ETH Zurich Department of Biology (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Zurich, Switzerland. (September 2020)
81. **SciX 2020 Conference (Invited Keynote):** *Emerging Leader in Molecular Spectroscopy: Nanomaterials Engineering for Life Science Applications.* Sparks, NV. (September 2020)
82. **Pennsylvania State University Department of Biology Seminar (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* State College, PA. (September 2020)

83. **Mid Atlantic Plant Molecular Biology Society Meeting (Invited Named Keynote - The Leslie Wanner Keynote speaker):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Baltimore, MD. (August 2020)
84. **2020 ACS National Meeting, JACS Spotlight on Chemistry from Bench to Market (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* San Francisco, CA. (August 2020)
85. **2020 Biological Physics/Physical Biology virtual seminar series (Invited):** *Tiny things to engineer solutions for life's big problems,* Virtual Seminar (July 2020)
86. **Carnegie Plant Cell Atlas (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Stanford, CA. (June 2020)
87. **2020 Gordon Research Conference on Nanotechnology in Food & Agriculture (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Manchester, NH. (June 2020) \*Canceled due to covid-19
88. **Monitoring Molecules in Neuroscience (Invited):** *Imaging Dopamine in Huntington's Disease Neurodegeneration and Treatment.* Lyon, France (June 2020) \*Canceled due to covid-19
89. **Carnegie Institute Seminar (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems.* Stanford, CA (May 2020)
90. **Dopamine 2020 (Invited):** *Imaging Striatal Dopamine with a Near-Infrared Fluorescent Nanosensor.* Montreal, QC, Canada (May 2020) \*Canceled due to covid-19
91. **2020 ECS Nanocarbons Division Young Investigator Award Symposium (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems.* Montreal, QC, Canada (May 2020) \*Canceled due to covid-19
92. **PROTEO 2020 Annual Symposium, Université Laval (Invited Keynote):** *Imaging Intercellular Communication with Synthetic Optical Probes.* Quebec City, QC, Canada (May 2020)
93. **2020 West Coast Innovation Forum (Invited):** *Breakthroughs in biotechnology.* Davis, CA (April 2020) \*Canceled due to covid-19
94. **MIT Chemical Engineering Seminar (Invited – Student-selected invited speaker):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Cambridge, MA (April 2020)
95. **Cornell University Chemical Engineering Seminar (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Ithaca, NY (April 2020)
96. **University of Rhode Island Department of Chemical Engineering Seminar (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems.* Kingston, RI (March 2020) \*Canceled due to covid-19
97. **University of Georgia Department of Plant Biology Seminar (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Athens, GA (March 2020) \*Canceled due to covid-19
98. **7<sup>th</sup> International Winterschool on Bioelectronics, BioEL2020 (Invited):** *Nanomaterials for Neuromodulator Imaging.* Kirchberg in Triol, Austria (March 2020) \*Canceled due to covid-19
99. **RIKEN Chemistry and Plant Biology Symposium (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Tokyo, Japan (March 2020) \*Canceled due to covid-19
100. **2020 Basal Ganglia Gordon Research Conference Discussion Leader (Invited):** *New tools and trends for imaging neuromodulation.* Ventura, CA (March 2020) \*Canceled due to covid-19
101. **UC Santa Barbara Department of Chemistry Seminar (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Santa Barbara, CA (March 2020)
102. **National Academies of Sciences US-UK Scientific Forum on Sustainable Agriculture (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Washington, DC (March 2020)
103. **San Francisco Neurological Society Annual Meeting (Invited):** *Imaging neuromodulation with synthetic nanosensors.* Monterrey, CA (March 2020) \*Canceled due to covid-19
104. **PittConn 2020 (Invited):** *A near-infrared fluorescent nanosensor enables high spatial resolution imaging of dopamine release in striatal brain tissue.* Pittsburg, PA (March 2020) \*Canceled due to covid-19

105. **University of Tennessee Knoxville Department of Agricultural Synthetic Biology Seminar (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* Knoxville, TN (February 2020)
106. **Chan-Zuckerberg Biohub Deep Imaging Conference (Invited):** *Challenges and Opportunities for Imaging Neuromodulation.* San Francisco, CA (January 2020)
107. **Penn State Department of Plant Biology Seminar (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* State College, PA (January 2020)
108. **Plant Animal Genomics (PAG) Conference, Bayer Inc Session on Transgenic Technology for Agriculture (Invited):** *Nanomaterials enable delivery of genetic material to plants without transgene integration.* San Diego, CA (January 2020)
109. **2020 UC San Diego Cell and Molecular Genetics Symposium (Invited):** *Delivery of Genetic Material to Plants without Transgene Integration.* La Jolla, CA (January 2020)
110. **NIH Chemogenetic Innovations in the Manipulation and Monitoring of Labeled Neurons Workshop (Invited):** *Probes and Activity Monitoring of Brain Neuromodulation.* Washington, DC (December 2019)
111. **NSF Nanoscale Science and Engineering Grantees Conference (Invited):** *Understanding Brain Neurochemistry: Imaging Neuromodulators with High Spatiotemporal Resolution.* Alexandria, VA (December 2019)
112. **Corteva, Inc. Company Seminar Series (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery Without DNA Integration in Mature Plants.* Johnston, IA (December 2019)
113. **Stanford University Materials Science Department Seminar (Invited):** *Nanotechnologies for life's big problems.* Stanford, CA (December 2019)
114. **Materials Research Society (MRS): Smart Materials, Devices, and Systems to Interface with Plants and Microorganisms (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery Without DNA Integration in Mature Plants.* Boston, MA (December 2019)
115. **The American University in Cairo (Invited):** *Understanding Brain Neurochemistry: Imaging Neuromodulators with High Spatiotemporal Resolution.* Cairo, Egypt (November 2019)
116. **International Tropical Agriculture Conference (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery Without DNA Integration in Mature Plants.* Brisbane, Australia (November 2019)
117. **Society for the Advancement of Chicanos and Native Americans In Science (Invited):** *Tiny Solutions to Help Solve Life's Big Problems.* Honolulu, HI (October 2019)
118. **Rijk Zwaan, Inc. Company Seminar Series (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery Without DNA Integration in Mature Plants.* Berkeley, CA (October 2019)
119. **Koc University Department of Chemical Engineering Seminar (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery Without DNA Integration in Mature Plants.* Istanbul, Turkey (October 2019)
120. **Istanbul Technical University International Biology and Genetics Congress (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery Without DNA Integration in Mature Plants.* Istanbul, Turkey (October 2019)
121. **Pairwise, Inc. Company Seminar Series (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery Without DNA Integration in Mature Plants.* Raleigh, NC (September 2019)
122. **ACS Talented Twelve Symposium (Invited):** *Tiny Solutions to Help Solve Life's Big Problems.* San Diego, CA (August 2019)
123. **Danforth Plant Science Center (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery Without DNA Integration in Mature Plants.* Saint Louis, MO (August 2019)
124. **American Society for Plant Biology Plenary Keynote (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery Without DNA Integration in Mature Plants.* San Jose, CA (August 2019)
125. **McGill University Faculty of Engineering (Invited):** *DNA and RNA Delivery with Nanomaterials in Mature Plants.* Montreal, QC (July 2019)

126. **RIKEN Center for Brain Science (Invited):** *Nanotechnology – Understanding the Brain in Both Health and Disease*. Tokyo, Japan (July 2019)
127. **Terramera, Inc. Company Seminar Series (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery Without DNA Integration in Mature Plants*. Vancouver, BC (July 2019)
128. **Parkinson's Disease Gordon Research Conference (Invited):** *Imaging Striatal Dopamine Release Using a Non-Genetically Encoded Near-Infrared Fluorescent Nanosensor*. Newry, ME (June 2019)
129. **Bioelectronics Gordon Research Conference (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems*. Andover, NH (June 2019)
130. **Society for In Vitro Biology (Invited Keynote):** *High Aspect Ratio Nanomaterials Enable Delivery of Functional Genetic Material Without DNA Integration in Mature Plants*. Tampa, FL (June 2019)
131. **Electrochemical Society Meeting (Invited):** *DNA Library Evolution of Carbon Nanotube Molecular Recognition*. Dallas, TX (May 2019)
132. **Umeå Plant Science Centre Seminar (Invited):** *High Aspect Ratio Nanomaterials Enable Delivery of Functional Genetic Material Without DNA Integration in Mature Plants*. Umeå, Sweden (May 2019)
133. **2019 Yale Chemical Biology Symposium (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems*. New Haven, CT (May 2019)
134. **UC Berkeley Department of Bioengineering Seminar (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems*. Berkeley, CA (May 2019)
135. **AIChE Midwest Meeting (Invited Keynote):** *Nanomaterials Engineering to Probe and Control Living Systems*. Chicago, IL (March 2019)
136. **Rockefeller University Center for Studies in Physics and Biology Seminar (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems*. New York, NY (February 2019)
137. **Memorial Sloan Kettering Cancer Center of Molecular Imaging and Nanotechnology Seminar (Invited):** *Nanomaterials Engineering to Probe and Control Living Systems*. New York, NY (February 2019)
138. **UCSD Plant Biology Symposium (Invited):** *Genetic Transformation of Plants with Nanoparticles*. San Diego, CA (January 2018)
139. **University of Washington Department of Chemical Engineering Seminar (Invited):** *Imaging Striatal Dopamine Release Using a Non-Genetically Encoded Near-Infrared Fluorescent Nanosensor*. Seattle, WA (January 2019)
140. **Kavli Sensing the Future Workshop (Invited):** *Imaging Striatal Dopamine Release Using a Non-Genetically Encoded Near-Infrared Fluorescent Catecholamine Nanosensor*. Houston, TX (December 2018)
141. **American Institute of Chemical Engineers (Invited):** *Exciton Engineering for Brain Nanosensor Delivery and Imaging of Modulatory Neurotransmitters*. Pittsburgh, PA (October 2018)
142. **University of Washington Department of Chemistry Seminar (Invited):** *Infrared Nanosensors for Imaging Dopamine Dynamics in the Brain*. Seattle, WA (October 2018)
143. **KAUST Plant Sciences Seminar (Invited):** *High Aspect Ratio Nanomaterials Enable Transgene Expression and Silencing in Plants*. Thuwal, Saudi Arabia (September 2018)
144. **Asilomar Bioelectronics Symposium (Invited):** *Imaging Brain Neurochemistry with Non-Genetically Encoded Near-Infrared Fluorescent Nanosensors*. Carmel, CA (September 2018)
145. **American Chemical Society Early Career Investigators in Biological Chemistry:** *Imaging Brain Neurochemistry with Non-Genetically Encoded Near-Infrared Fluorescent Nanosensors*. Boston, MA (August 2018)
146. **American Chemical Society Applied Nanotechnology for Food & Agriculture:** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery and Transgene Expression or Silencing in Mature Plants*. Boston, MA (August 2018)

147. **Gordon Research Conference: Optogenetic Approaches to Understanding Neural Circuits and Behavior (Invited):** *Imaging Striatal Dopamine Release using a Non-Genetically Encoded Near-Infrared Fluorescent Catecholamine Nanosensor.* Newry, ME (July 2018)
148. **Northwestern University, Feinberg School of Medicine Seminar (Invited):** *Optical Detection of Striatal Dopamine with a Near-Infrared Fluorescent Catecholamine Nanosensor.* Evanston, IL (June 2018)
149. **University of California Davis, Chemical Engineering Department Seminar (Invited):** *Nanomaterials Engineering for Life Sciences Applications.* Davis, CA (May 2018)
150. **Electrochemical Society Meeting (Invited):** *High Aspect Ratio Nanomaterials Enable Transgene Expression and Silencing in Plants.* Seattle, WA (May 2018)
151. **DuPont Plant Sciences Symposium (Invited):** *High Aspect Ratio Nanomaterials Enable Transgene Expression and Silencing in Plants.* Berkeley, CA (April 2018)
152. **Innovative Genomics Institute (Invited):** *High Aspect Ratio Nanomaterials Enable Biomolecule Delivery into Plants.* Berkeley, CA (April 2018)
153. **University of North Carolina at Chapel Hill, Biomedical Engineering Department Seminar (Invited):** *Nanotechnology for Life Sciences Applications.* Chapel Hill, North Carolina (March 2018)
154. **US-Brazil Workshop on Biosensors: Bioanalytics to Device Integration (Invited):** *Neurochemical Imaging for Validation of Antidepressants.* Sao Paulo, Brazil (November 2017)
155. **AVS 2018 National Meeting, Biointerfaces Division (Invited):** *Visualization of Neuromodulation with Infrared Fluorescence Microscopy.* Tampa, FL (November 2017)
156. **New York University, Lagone Medical Center Seminar (Invited):** *Imaging Brain Neuromodulation with Infrared Nanosensors.* New York, NY (October 2017)
157. **SciX Conference (Invited):** *Engineering Excitons for Imaging Neuromodulation in the Brain.* Reno, NV (October 2017)
158. **University of San Francisco, Physics Department Seminar (Invited):** *Tiny Tools to Solve Big Biomolecular Challenges.* San Francisco, CA (September 2017)
159. **International Rice Research Institute, IRRI Seminar (Invited):** *Plant Genome Editing via Nanomaterial-Scaffolded Biomolecule Delivery.* Los Banos, Philippines (July 2017)
160. **Inari, Inc (Invited):** *Passive Mature Plant Transformation with High Aspect Ratio Nanoparticles.* Boston, MA (June 2017)
161. **Georgetown University Physics Department Seminar (Invited):** *Engineering and Imaging Excitons for Brain Imaging of Modulatory Neurotransmitters.* Washington, DC (June 2017)
162. **Electrochemical Society Meeting 2017 (Invited):** *Nanosensors for Modulatory Neurotransmission Imaging.* New Orleans, LA (June 2017)
163. **Gettysburg College Physics Department Seminar (Invited):** *Exciton Engineering for Imaging Neuromodulatory Neurotransmission.* Gettysburg, PA (March 2017)
164. **International Conference on Plant Synthetic Biology and Bioengineering (Invited):** *Nanoparticles as Biomolecular Cargo Transporters in Plants.* Miami, FL (December 2016)
165. **George Mason University Physics Department Seminar (Invited):** *Imaging Neurochemistry with Synthetic Fluorescent Nanosensors.* Washington, DC (October 2016)
166. **Quantitative Cell Profiling Symposium:** *Single-Molecule Detection of Protein Efflux from Isolated Microorganisms using Fluorescent Single Walled Carbon Nanotube Sensor Arrays.* Osaka, Japan (September 2016)
167. **Lawrence Berkeley National Laboratory Molecular Foundry (Invited):** *Nanoparticle-Polymer Conjugates for Near-Infrared Biomolecular Detection.* Berkeley, CA (August 2016)
168. **New York University Langone Medical Center Seminar (Invited):** *Synthetic Infrared Nanosensors for Modulatory Neurotransmitters.* New York, NY (July 2016)

169. **University of Texas El Paso Chemistry Department Seminar (Invited):** *Molecular Predictions and Computational Approaches to Understanding Chemical Neurotransmission*. El Paso, TX (April 2016)
170. **Brain and Behavior Research Foundation Spring Foundation (Invited):** *Understanding How Brain Cells Communicate – And Sometimes Miscommunicate*. West Palm Beach, FL (February 2016)

## RESEARCH EXPERIENCE

---

- **Massachusetts Institute of Technology:** Chemical Engineering  
*Michael Strano, Primary Advisor.* (2013 – 2016) – [Strano Research Group](#)  
Synthesis of nano-scale optical sensors and development of molecular fluorescence imaging microscopes.
- **University of Illinois Graduate Student:** Chemical Physics  
*Yann Chemla, Primary Advisor.* (2007 –2012) – [Chemla Lab](#)  
Design and construction of single-molecule instrumentation: optical traps and fluorescence microscopy. I studied telomerase protein systems and DNA-nanotube interactions.
- **Junior Nanotechnology Network Fellow:** Technische Universität München  
Ludwig-Maximilians-Universität. (2010 –2010)  
I worked with Don Lamb, Matthias Rief, Hendrik Dietz, and Hermann Gaub to develop techniques for probing biological systems and nanomaterials at the single-molecule scale.
- **University of Illinois Business Consulting:** Consultant. (January 2010 – May 2010)  
Managed a team of doctoral and business students in an interdisciplinary setting to perform market research analysis for the creation of a startup technological company.
- **Osaka University Visiting Research Fellow:** Nanobiology  
*Toshio Yanagida laboratory.* (2009) – [Yanagida Soft Biosystem Group](#)  
My research in the Yanagida group centered on optimizing sub-diffraction limited imaging (FIONA) for protein-DNA dynamic studies with Total Internal Reflection Fluorescence Microscopy.
- **Duke University Research Assistant:** Pharmacology & Cancer Biology  
*Madan Kwatra laboratory.* (2007) – [Kwatra Laboratory](#)  
My research in the Kwatra group was based on a quantitative study of G protein-coupled receptors as they relate to postoperative delirium in elderly patients.
- **University of North Carolina at Chapel Hill Research Assistant:** Biochemistry and Biophysics.  
*Brian Kuhlman laboratory.* (2002 –2006) – [Kuhlman Lab](#)  
My research in the Kuhlman group centered on the study of protein - protein interaction energies in the ubiquitin protein network by expressing protein mutants and performing protein kinetic assays.

## TEACHING EXPERIENCE

---

- **CBE 141: Chemical Engineering Thermodynamics: Instructor** (Spring 2017, 2018) – [Syllabus](#)  
*University of California, Berkeley department of Chemical and Biomolecular Engineering*  
Topics covered thermodynamic behavior of pure substances and mixtures, properties of solutions, phase equilibria, thermodynamic cycles, and chemical equilibria for homogenous and heterogenous systems.
- **CBE 182: Nanoscience and Engineering Biotechnology: Instructor** (Fall 2017, Fall 2018, Spring 2020, Fall 2021) – [Syllabus](#)  
*University of California, Berkeley department of Chemical and Biomolecular Engineering*  
Topics covered molecular biology, protein folding thermodynamics, protein and enzyme engineering, recombinant DNA technology, nanomaterials synthesis, nanodevices, nanotechnology.
- **CBE 154: Unit Operations for Chemical Engineering: Instructor** (Fall 2016, Spring 2019) – [Syllabus](#)  
*University of California, Berkeley department of Chemical and Biomolecular Engineering*  
This undergraduate course is one of two capstone courses in the chemical engineering curriculum, with a focus on experimental design for topics in thermodynamics and transport phenomena.
- **NEUROSC 290A: Neuroscience Research Methods and Professional Development: Co-instructor** (Fall 2017, Fall 2018)  
*University of California, Neuroscience Graduate Program*

## Markita Patricia del Carpio Landry

---

This graduate course is offered to first-year doctoral students in the UC Berkeley neuroscience graduate program. Topics covered include neuroscience research methods including classical experimental tools, data analysis, and data interpretation.

- **MCB 293C** (Spring 2019)  
*University of California, Berkeley department of Molecular and Cellular Biology*  
This graduate course covers topics in research best practices and responsible conduct in research drawing from case studies from the Association of American Medical Colleges and the NIH.
- **Clubes de Ciencias (CdeC) Mexico: Instructor** (2014 - 2015) – [Course website](#)  
*Universidad Nacional Autónoma de México*  
Designed and taught an optics course for low-income university freshmen students in Ensenada, Mexico. Worked with Universidad Nacional Autónoma de México to remotely serve as a mentor for students.
- **Engineering Nanotechnology Co-Instructor:** (Fall 2013 & 2015)  
*Massachusetts Institute of Technology department of Chemical Engineering*  
Developed course materials for imaging and materials passivation techniques used in the field of engineering and nanomaterials science. Gave course lectures and prepared course handouts.
- **Center for the Physics of Living Cells Instructor:** (Summers 2009 – 2011)  
*University of Illinois at Urbana Champaign department of Physics*  
Led week-long intensive course for visiting graduate students and scientists, on the construction and use of a single-molecule total internal reflection fluorescence microscope and single-molecule optical trap.
- **Junior Nanotechnology Network Instructor:** (Summer 2010)  
*University of Illinois at Urbana Champaign department of Physics*  
Instructed 15 graduate students on the construction and biological applications of single-molecule fluorescence and force microscopy.
- **Advanced Thermodynamics and Statistical Mechanics Teaching Assistant:** (Spring 2008)  
*University of Illinois at Urbana Champaign department of Chemistry*  
Gave upper-level undergraduate student lectures, supplemental instruction sessions.
- **General Chemistry Teaching Assistant:** (Fall 2007)  
*University of Illinois at Urbana Champaign department of Chemistry*
- **Introductory Electrodynamics Teaching Assistant:** (Fall 2006 – 2007)  
*University of Illinois at Urbana Champaign department of Physics*
- **Introductory Mechanics Teaching Assistant:** (Spring 2006 – 2007)  
*University of North Carolina at Chapel Hill department of Physics*
- **General Chemistry Laboratory Teaching Assistant:** (Fall 2006)  
*University of North Carolina at Chapel Hill department of Chemistry*

### CERTIFICATIONS

---

2010	Certified LabVIEW Associate Developer (CLAD)
2009	Certificate in Business Administration, University of Illinois College of Business

### PROFESSIONAL SOCIETY MEMBERSHIPS

---

- American Institute of Chemical Engineers
- American Society for Cell Biology
  - Minority Affairs Committee
- Biophysical Society
- Society for the Advancement of Chicanos and Native Americans in Science
- Electrochemical Society
- American Chemical Society
- American Physical Society
- Biomedical Engineering Society

### TRAINEES

---

#### (1) POSTDOCTORAL SCHOLARS

##### • Curent

- Juliana de Lima Matos (June 2021 – present)
- Shoichi Nishitani (June 2021 – present)
- Jaewan Mun (February 2021 – present)
- Eduardo Gonzales Grandio (April 2019 – present)
- Dabin Yim (April 2022 – present)
- Roxana Coreas (August 2022 – present)
- Natsumi Komatsu (February 2023 – present)
- Kevin Ao (September 2023 – present)

##### • Former

- Mohammed Moein Safaee (May 2021 – present)  
Current affiliation: Principal Scientist at Abbvie
- Eduardo Gonzales Grandio (April 2019 – present)  
Current affiliation : Principal Scientist at [National Center for Biotechnology](#)
- Ian McFarlane (February 2016 – May 2021)  
Current affiliation : Senior Diagnostics Software Engineer at [KLA](#)
- Sanghwa Jeong (February 2016 – February 2021)  
Current affiliation : Assistant Professor, [Pusan National University, School of Biomedical Engineering](#)
- Huan Zhang (February 2016 – August 2020)  
Current affiliation: Assistant Professor, [Jinan University Department of Chemistry and Materials Science](#)
- Travis del Bonis O'Donnell (February 2016 – August 2020)  
Curent affiliation: Scientist, [Quantapore](#)
- Younghun Sung (February 2016 – April 2019)  
Curent affiliation: Samsung Electronics Semiconductor R&D Institute
- David Pieraski (February 2016 – December 2018)  
Curent affiliation: Advanced Health Fellow, Department of Veterans Affairs, Palo Alto
- Junchen Wu (March 2016 – May 2017)  
Curent affiliation: Assistant Professor, [East China University of Science and Technology](#)

#### (2) GRADUATE STUDENTS

##### • Curent

- Jeffrey Wang (December 2018 – present)
- Alison Lui (December 2018 – present)\* Co-advised with Kranthi Mandadapu
- Nicholas Ouassil (December 2018 – present)
- Madeline Klinger (August 2019 – present)\* Co-advised with Linda Wilbrecht
- Nicole Navarro (August 2019 – present)
- Francis Ledesma (December 2019 – present)
- Joshua Hubbard (December 2019 – present)
- Elizabeth Voke (December 2020 – present)
- Jaquesta Adams (May 2020 – present)
- Henry Squire (August 2021 – present)
- Sophia Tomatz (May 2022 – present)

##### • Former

- Gabriel Dorhliac (December 2016 – December 2022)\* Co-advised with Aaron Streets  
Current affiliation: Research Associate, SLAC National Accelerator Laboratory
- Sarah Yang (December 2017 – August 2022)\* Co-advised with David Schaffer  
Current affiliation: MIT Postdoctoral fellow, [Ed Boyden Lab](#)
- Chris Jackson (August 2019 – June 2022)  
Current affiliation : [AAAS Science and Technology Policy Fellow](#)
- Francis Cunningham (December 2017 – June 2022)  
Current affiliation : Scientist at [Berkeley Yeast](#)
- Natalie Goh (December 2017 – May 2022)

- Current affiliation : Scientist at [Scribe Therapeutics](#)
- Rebecca Pinals (December 2016 – May 2021)  
Current affiliation : Schmidt Foundation postdoctoral scholar, [Li-Huei Tsai Lab, MIT](#)
- Darwin Yang (January 2016 – October 2020)  
Current affiliation : Scientist, [Evolve Biotech](#)
- Gozde Demirer (January 2016 – June 2020)  
Current affiliation: [Assistant Professor, Caltech Department of Chemical Engineering](#)
- Abraham Beyene (January 2016 – December 2019)  
Current affiliation: Principal Investigator of the [Beyene Lab at the HHMI Janelia Research Campus](#).
- Linda Chio (January 2016 – April 2020)  
Current affiliation: Research scientist at [Gordian Biotechnology](#).

### (3) ROTATION STUDENTS

- **Curent**
  - None
- **Former**
  - Nancy Hernandez Villegas (HWNl rotation student, 2021)
  - Susanna Yaeger-Weiss (Biophysics rotation student, 2019)
  - Anneliese Gest (Chemical Biology rotation student, 2018)
  - Meagan Paul (Biophysics rotation student, 2018)
  - Vanessa Yang (Chemical Biology rotation student, 2017)
  - Toby Turney (Biophysics rotation student, 2017)
  - Daniel Brauer (Chemical Biology rotation student, 2016)
  - Sarah Harrington Klass (Chemical Biology rotation student, 2016)
  - Carl Cori Ward (Chemical Biology rotation student, 2016)

### (4) UNDERGRADUATE STUDENTS

- **Curent**
  - Octavio Arias-Soto
  - Ashvin Irrinki
  - Amad Jalil
  - Diane Kim
  - Michael Ni
  - Kyle Shun
  - Rigney Miller
  - Nikitha Sridhar
  - Danya Hassan
  - Cerise Wong
  - Nicole Carll
  - Marcus Varni
  - Diyue Yang
  - Soungyun Yang
  - Andrew Puglisa
  - Ava Moudi
  - Minjae Kim
  - Esther Leem
  - Matthew Pham
  - Billie Zeng
- **Former**
  - Autumn Lee – Graduate student at Columbia University
  - Kyle De Mathias – Graduate Student at Stanford
  - Carl Atik
  - Kaushik Seshadri
  - Edward Lien
  - Sejal Krishnan
  - Thalia Georgiou – Graduate Student at UCLA Biophysics

- Bora Ozcan – Research Specialist at Scribe Therapeutics
- Kenneth Celis
- Francesca Giordani – Medical Student
- Alexia Li – Graduate Student, Columbia Chemical Engineering
- Natasha Raut
- Jason Morales
- Xiaoqi Sun – Graduate Student, MIT Chemical Engineering
- Navid Boozarpour – Process Associate, Clara Foods
- Armine Dingilian – Ph.D. student in Biophysics at UIUC
- Aishy Murali – Process Scientist, Boehringer Ingelheim
- Tiffany Unsulangi – Medical School at UCSF
- Dorothy Li – Clinical Lab Associate at Lucence
- Tanya Chaudhary – R&D Engineer at Apple, Biomedical Division
- Cindy Zhou – Ph.D. student in Chemical Engineering at MIT
- Ami Thakrar – Ph.D. student in Biomedical Engineering at Harvard
- Abhishek Jindal Aditham – Ph.D. student in Bioengineering at MIT
- Tina Ye – Ph.D student in Chemical Engineering at Rice University
- Salwan Butrus – Ph.D student in Chemical Engineering at UC Berkeley
- Edward Sun
- Eric Tindall
- Nicole Sugino
- Arismel Tena Meza
- Lee Puckett
- Roger Chang – Ph.D student in Chemical Engineering at UIUC

---

### LEADERSHIP AND SERVICE

- **Journal editor**  
2022 - PNAS guest editor
- **Grant review panelist**  
2022 - NIH NANO Grant review study section, October Panel (standing member)  
2022 - NIH NANO Grant review study section, June Panel (standing member)  
2022 - DOE Plant Biosystems Design Review, May panel (ad hoc)  
2022 - NIH NANO Grant review study section, February Panel (standing member)  
2021 - NSF Enabling Discovery through Genomics (EDGE) program (ad hoc)  
2021 - NIH NANO Grant review study section, October Panel (standing member)  
2021 - NIH NANO Grant review study section, June Panel (standing member)  
2021 - NSF Phase I: Energy Storage and Other Technologies Panel (ad hoc)  
2021 - NIH NANO Grant review study section, February Panel (standing member)  
2020 - NSF Plant Genome Research Program (ad hoc)  
2020 - NIH NANO Grant review study section, October Panel (standing member)  
2020 - Phase I: Distributed Ledger & Other Innovative Technologies SBIR/STTR Phase I review panel  
2020 - NIH NANO Grant review study section, February Panel (standing member)  
2020 - USDA National Institute of Food and Agriculture panel on Nanotechnology for Agricultural and Food Systems  
2020 - Phase I: COVID solutions and other Innovative Technologies II  
2020 - SBIR Phase I: Assured - Securely sharing COVID19 information grant review  
2019 - SBIR Technology Transfer grant review (R43/R44) (ad hoc)  
2018 - NIH CMT grant review study section (ad hoc)  
2018 - NSF SBIR/STTR grant review panelist (ad hoc)  
2017 - NSF SBIR/STTR grant review panelist (ad hoc)  
2016 - NSF CBET grant reviewer (ad hoc)  
2016 - NIH BPNS grant review study section (ad hoc)
- **Proposal Committee for the formation of a Department of Neuroscience (2021 – 2023)**  
Committee charged with the design and creation of a neuroscience department for the UC Berkeley Campus.
- **Diversity Equity and Inclusion Chair (2019, 2022) Member (2019 – present)**  
DE&I representative and chair for the department of chemical and biomolecular engineering.

- **Robotics & Engineering for Youth: Faculty Advisor** (2017 - present)  
Mentor for student group to expose K-8 students to engineering and computer science via hands-on lego league robotics and scratch programming.
- **Alliance for Diversity in Science and Engineering (ADSE): Faculty Advisor** (2017 - present)  
Mentor and faculty advisor for ADSE, attended inaugural meeting, contribute to outreach and professional development events.
- **Alpha Chi Sigma Chemistry Fraternity: Faculty Mentor** (2016 - present)  
Mentor for Alpha Chi Sigma, Sigma chapter. Serve as student mentor, speaker, and outreach.
- **Latino/a Association of Graduate Students in Engineering and Sciences at UC Berkeley (LAGSES): Faculty Mentor** (2016 - 2019)  
Mentor for LAGSES students, speaker, panelist, and student-faculty liaison.
- **MIT Presidential Committee on Race and Diversity: Campus-wide elected postdoctoral representative** (2013 - 2016)  
Representative for the postdoctoral body. Led efforts with MIT president Rafael Rief to encourage recruitment, retention, and promotion of underrepresented students, faculty, and staff on the MIT campus.
- **Society for the Advancement of Chicanos and Native Americans in Science (SACNAS): Founder, MIT** (2013 - 2016) **President, University of Illinois** (2010, 2011, 2012, Member 2008 – 2012)  
Founded the first SACNAS chapter at MIT. Started a professional SACNAS chapter on campus.
- **MIT Postdoctoral Association: Diversity and Inclusion Chair** (2013 - 2016)  
Serve as a representative and liaison for MIT minority postdocs. Lead negotiation efforts for postdoctoral wages and benefits. Organize career development events for minority postdocs.
